The Newsletter of the North Shore Frogmen's Club

Volume 52, Number 10

October 2010

President's Message, October 2010

First, a very big thanks to all who made the picnic a big success. Ray, Rich and Bill for manning the grills, John Ferrier for the ice, John Sears for the raffle, Jes for the food, Vinny for throwing the tickets on the ground and everyone else who helped and attended. The rain held off for most of the day, and despite the cool breeze from the ocean, a great day was had by all. This year the club paid for six of the Dive Kulture kids to enter the BSC Treasure Hunt. I don't know how they did, if anybody does please let the club know. The club also fed the DK kids and parents gratis. I felt free was the best price, despite the kind offer from Laura to pay. As we joined with other dive clubs and the BSC, the turnout was probably the largest I have seen for many years. Those who dove apart from the BSC event reported poor but warm conditions.

As September draws to an end, fall is showing in the trees and most importantly, the banquet tickets are on sale. December 11th should be marked in your calendars as the highlight of the season. This year the venue is the same as last, the Beverly Golf and Tennis Club. I think it's safe to say a better time can not be had for only \$35. This year we have restricted ticket sales to 120. Last year tickets sold out pretty quickly, so buy early to guarantee your place and save \$10 on the post-November 1st price of \$45.

Graham Smith

Coming Club Events

October 21: Jerry Shine will give a presentation to our Club at the meeting on October 21 on Nudibranchs of the Northeast.

October 28: Begin nominations for 2011 Club Officers.

December 11: Annual NSF Banquet

Our Veep at the picnic

Meeting Summaries

02-Sep-2010

Meeting called to order: 8:04 PM
Attendance: 3 Officers, 18 Members
Secretary: Minutes read and accepted as amended.

Treasurer: report read and accepted.

Committees:

- Air Bubbles: Mary Howard-Sept issue in the works, not quite ready.

Correspondence: Paul was in touch with Steve Calawa who went to 2 funerals this past weekend. He'll bring a card.

Old Business:

- The website is done, is working well; Markus will transfer stuff tonight. Markus has pics from Paul. Would like to get feedback from members. Markus is wondering if there is an electronic version of the by-laws to put on the site.

- **Picnic** – have permits, need prizes. Should figure how many are will attend, expect people to buy about \$10 each in raffle tickets, divide by 2 and that's the budget for prizes. In the past we had several types of raffles, separate TV, booze and dive related raffles. The more we have the more complicated, but the more revenue.

- The Club supplies hot dogs, burgers, buns, condiments; members bring other food items to share. John will bring coolers w/ice. Ray will bring a grill. MetroWest usually brings a grill.

- Ray will forward previous years' budgets to officers.

- Salem State has its own dive club, Jes invited them to come.

- There will be a BSC meeting on 9/8 to finalize plans for the Treasure Hunt which is scheduled for the same day and location.

New Business:

Paul has CDs from Pat & Annette of pictures from the VT weekend. They sent a letter – they're looking forward to next summer's planned Club visit.

Dive Talk:

- **Markus and Peter E.** this morning at Ft Sewall – vis not good, tons of bugs, lots of eggers, 2' striper following them.

- **Ray** in Eastport with **Amy, Mary, John, Michael D.** and Dave. Vis was 8-12 feet. Amy did 6 dives, Mary did 5, Ray 4. Ray dove dry in theory, wet in practice. Wolf fish Gene (Eugene) has a partner. There's also a new wolf fish, but don't know its gender, so it's named Pat. Wolfish males guard the eggs so you can determine sex at that stage. On the last dive John found a 30 pound lobster but he didn't have his camera with him. Big jellyfish on the last day.

- **Jes** at Niles Beach, just messing around got a dozen surf clams made baked stuffed clams

- Last night, there was a ton of squid at Back Beach. They were sitting on people's hands. Went in around 7:45 and had a 60-70minute dive. Great dive. Another group that was there got confused, thought they were part of them.

- **Meg** went out on the Easy Diver, went to Kettle Island and Diver's Leap. Water was in the 60s at 30-40 feet. Vis was OK. Saw lot of bugs, but no keepers.

- **Adam and Tony** did Front Beach; it was Tony's first dive in 2 months, found a big bug.

General Discussion:

Dodie – when she did check out dive years ago, rope kelp there, tough to see, but went through all the skills. When they came out the instructor said "I don't know who you are but you passed!"

Raffles: Dollars Box: John Sears
Mystery Prize: Pete Chapman
Bug Bag: John Marren

09-Sep-2010

Meeting called to order: 8:06 PM
Attendance: 2 Officers, ? Members
Guests: Mark C – diving 40 yrs, friend of Mike Lodisi's; Dave R 15 yrs diving

Secretary: Minutes read and accepted as amended.

Deadline for submissions
to the November 2010 issue
of *Air Bubbles* is
Thursday, October 21
Please have all articles and
information to the Air
Bubbles editor by that date.

Treasurer: report read and accepted.

Committees:

- **Air Bubbles:** went out electronically last Thursday night

- **Website:** Markus, the current website host is not fully compatible with what he's done; he wants to move the NSF website to GoDaddy, at cost of \$5/month. Current web host should expire soon anyway, so a good time to do it. Motion made seconded and passed to let Markus move it to new server.

- **Program:**

- 9/26 - Picnic

- 10/21 - Jerry Shine presentation.

Old Business:

- **Picnic** -

- Not certain if MetroWest is bringing a grill. Mary can email Rich. Bill can bring a grill.

- Prizes - look to spend \$200-300; John S will pick some up.

- **Presentations** -

- Amy emailed that Jerry Shine's presentation on Nudibranchs of the Northeast (21st Oct), as seen at Beneath the Sea

- She is also working on getting Jonathan Bird to give a talk on sharks

New Business: Markus had idea for shirts with members' names on it for the year. There has been a positive response. May cost about the same as the other NSF shirts.

Information from the BSC meeting held last night.

- Vic Mastone of the Massachusetts Board of Underwater Archaeological Resources (BUAR) will be speaking at MetroWest next Tues about raising dugout canoes in Lake Quinsigamond.

- MetroWest Wrecks & Recreation show will be Nov 6th

- Sea Rovers will start up their annual clinic again, will be 1st weekend of March at Danvers Ferncroft. We may want to consider having a booth as in previous years.

- Applications for Frank Scalli Annual Summer Internship are being accepted. Every year the Sea Rovers

Air Bubbles – October 2010

pick deserving high school or college student interested in marine sciences. Helps to be certified diver before, but it's not necessary. It's a whole summer program.

- There's a scheduled event at the Gilbert Bean Museum in Braintree on UBoats, including the U853, on Oct 2nd.

- Sep 18th Thompson Island cleanup, leaving from Black Falcon terminal

Dive Talk:

- **Mark C.** - today wrecks off Salisbury Beach some the beams exposed, they're 17th century wrecks in "Lobster City" fairly decent diving there. Need boat to get there. Current was strong, vis was 25'

General Discussion:

- Paul - Dougie Russell - Was in his yard, small bee flew up nose and stung him. He's very allergic, anaphylactic shock, 4 days in intensive care. He's better and doing well. He wishes everyone well.

- Mike has hats, pins, etc. tonight

- Mike's Moments:

- 40' fishing boat sunk off of Gloucester at 160-170' deep. No plans to bring it up, 3 mi off coast of Gloucester

- OSHA release on Sea World death with the killer whale - Sea World fined \$75,000. They recognized inherent risk of working with dangerous animals, but employer has to ensure work environment is safe.

- 70 bottles of 2 century old champagne, that was very well preserved, found in the Bering Sea

- List of 10 most interesting dives including Bimini Road in Bahamas, - Ocean dead zones more expansive than they were in 1960. There's a large one in Gulf of Mexico and an area off Wash/Ore coast

- Article with big koi goldfish, can't tell if it's real. Supposedly 30 lbs.

Raffles: Dollars Box: John Marren
Mystery Prize: Jeff Lynch

16-Sep-2010

Meeting called to order: 8:04 PM

Attendance: 3 Officers, 10 Members

Secretary: Minutes read and accepted as amended.

Treasurer: report read and accepted.

Committees:

- **Program:**

- 9/23 - Jonathan Bird on Tiger Sharks

- 9/26 - Picnic and BSC Treasure Hunt

- 10/21 - Jerry Shine on Nudibranchs of the Northeast

- Vinny will be doing a presentation on Cenote diving sometime

Old Business:

- Website: Markus will be switching over this weekend. A number of people sent profile photos. Someone suggested that someone besides Markus should have access as webmaster, for emergencies, like the Club president.

- Markus sent a new Camo shirt to Afghanistan for Mike M. He also has a XXXL shirt for all of us to sign for Mike M. and he wants to do another one for Ken F. Did a tag for the T-shirts telling about the Frogs - business card size.

- Name shirts? Any decision? Design maybe 2 rows of names, next to name will be date joined and any office held. Current officers on top, and we can do it every year. For legal reasons we'd need a sheet that everyone signs saying they are OK with putting the name on there. It would include paid and Life Members. Can have history of Froggies on the inside for the person that has the shirt. Life is Good shirts have their history on the inside. Send emails, put in Air Bubbles for everyone, if don't respond by cutoff, then they're not on it.

- **Banquet**

- Some members tried to see the DJ at the AOH, but it was a slow night and they were closed. Vinny will contact her to book her for our party.

- Banquet ticket sales will be similar to last year. Tickets will be printed soon, \$35 before a certain date and \$45 afterwards.

- There is a contract written with BG&TC and there are no hidden

Air Bubbles – October 2010

fees. Menus say that all prices are inclusive of taxes, fees, room rental, etc. Vinny will give our menu choices to them soon. We're scheduled for 7-11. Is it possible to have cocktail hour at 6:30?

-Picnic on 26th

-Jes getting food.

-Dive Kulture kids are coming, can we cover up to \$60 for their treasure hunt fee? We have the discretionary fund, we can do it.

-Mary spoke with Angelo at BSC about having them set up near where the picnic will be.

New Business: Motion to go forward with name shirt, with cutoff of end of Oct. Motion made seconded and passed. Price for shirts? Markus can pay upfront.

Dive Talk:

-**Markus** at Chandler Hovey with **Peter** and his nephew.

-**Vinny** – Mexico, 1 shallow dive (50'), 1.5 hrs south of Cancun. Fish all over the place, saw one barracuda. Corals almost dead. Saw cool big angel fish. Deep dive 110' saw a ray. Did cenote diving, underwater cave in Mexico. He has a video tape and still photos and will put together a presentation. The cenotes are also good for swimming, not just diving.

-**Meg, Laura, Shon, Erika, Dan H, Todd** did a night dive at Back Beach – saw lots of squid. Mainly stayed shallow, around 10-15' deep..

General Discussion:

-Mike's Moments:

-Today show had presentation on people attacked by sharks. All were held in the air and shook by the sharks.

-There's a section of the Mississippi River with lots of dead fish, where fertilizer gets mixed into the water and creates a dead zone.

-There were some guys fishing, caught some fish and also pulled up the bottom part of a person's leg. The person was ID'ed person's by fingerprints. Apparently, a boat had broken down and this person and one other jumped in to push boat to

shore. The other person wasn't found.

-Lake Windermere in Northern England, a 20' long creature called Bough Nessie, who some think may be a relative of Loch Ness monster

Raffles: not recorded in minutes

23-Sep-2010

Abbreviated Meeting for Jonathan Bird Presentation

Meeting called to order: 8:00 PM
Attendance: 4 Officers, 28Members
Guests: 10 total – 3 friends of Mary & Ray, Collin White, some PCYC members

Committees:

-Membership: Dan Hering –.Collin White – newly certified. Motion made, seconded and passed to make him our newest Club member.

Old Business:

-Picnic this weekend and BSC starts at 9 bring food

-Bob Boyle has sale this weekend.

-Signing a shirt for Mike Miller

Dive Talk:

-Patty and Linda went on Easy Diver next to Folly, saw torpedo ray; 2nd dive off Halibut Point. Good trip, it was fun.

-Jes – open water class at Back Beach, saw horseshoe crab and a tropical butterfly fish.

Raffles: Dollars Box: Bill Werner
Mystery Prize: Linda Piehl
Bug Bag: Collin White

Jonathan Bird gave a very interesting presentation on Tiger Sharks after the short business meeting. Coincidentally he also spoke about Lemon Sharks and gave some great photography tips.

Please welcome New Club Member Collin White

newest member at the
meeting on September 23

An American tourist asks a sailor:

"Why do Scuba divers always fall backwards off their boats?"

To which the sailor replies:

"If they fell forwards they'd still be in the effin' boat."

Coming Events

NSF Club Events / Activities

Jerry Shine – October 21

Jerry Shine, author of *A Shore Diving Guide to New England*, will be our guest speaker on October 21st. He will be speaking to us about the topic of his soon-to-be-published book to be titled *Nudibranchs of the Northeast*.

Nudibranchs are among New England's most beautiful sea creatures. Luminous colors, wild shapes, incredible variety – in other words, they pack an awful lot into an inch. Join Jerry Shine for a photographic look at more than 25 different species, with an emphasis on when, where and how to find them in New England waters. Jerry's writing and underwater photography have appeared in more than 100 publications worldwide.

NSF NAME Shirts

There is a plan underway to make up shirts with the Club name on the front, and with the names of all current members listed on the back. Next to the names will be the date they joined the club, and will note any Club offices the members have held. **Please let a Club Officer know if you do NOT want your name on the shirt, by November 1.**

Officer Nominations Begin – 10-28-10

Nominations for 2011 officers will begin during the last Club meeting in October. Consider supporting your Club by running for office.

NSF Banquet – December 11

North Shore Frogmen's Club Annual Banquet

The Annual Club President's Banquet will take place on December 11 at the Beverly Golf and Tennis Club. Beginning at 6:30PM with a cocktail hour, then dinner with a great menu, and ending about 11PM with dancing to DJ. This will be our big social event of the year. **Tickets are on sale now at \$35 per person.** The price will go up to \$45 after November 1st, and the number is limited, so get your tickets ASAP. Contact Club Treasurer Vinny Egizi for tickets, or come to a meeting soon.

Other Events of interest to SCUBA divers

Battle of the Atlantic – October 2

U-Boat Warfare on the New England Coast and the Destruction of the German Submarine U-853 off Block Island, Rhode Island

At the Braintree Historical Society, Gilbert Bean Museum & Research Center, 31 Tenney Road, Braintree

Saturday 10/2/10 at 10AM, Admission \$5

The story of submarine warfare off the New England coast will feature guest speaker Paul M. Lawton, attorney and naval and maritime historian, followed by a narrated video showing the U-853. Local WWII veterans will be available to speak about their wartime adventures.

UDCM Annual Banquet 10/8/10

United Divers of Central Mass is holding their annual banquet on Friday, October 8. Richie Kohler, technical and wreck diver, maritime historian, and host of the show Deep Sea Detectives, will be the guest speaker at this event.

When: October 8, 2010 starting at 6PM

Where: Devens Common Center, 31 Andrews Parkway, Devens, MA

Tickets: \$35 includes presentation and dinner

How: Contact M. Bowers for tickets and information at mddvr63@gmail.com

MWDC Wrecks & Recreation Dive Show

MetroWest Dive Club will be holding their Wrecks & Recreation Dive Show on Saturday, **November 6** in Framingham.

"It's not just for wreck divers!"

When: November 6, 2010

Where: Keefe Technical School, Framingham

Tickets: Available on the website (before 10/16 for \$15) or at the door (\$20)

More: For more information see website at www.MWDC.org

The MWDC website includes a list of speakers scheduled so far and will be updated regularly.

NEU MSC Fall Lecture Series

The Northeastern University Marine Science Center is hosting a selection of Lecture Series this fall and we would love for you to attend! The first lecture of the season is:

Environmental Benefits and Impacts of Aquaculture, and Relevance to the North Shore
Lecturer: Dr. Joe Buttner

Dr. Joe Buttner is an Associate Professor of Biology at Salem State University. He is an AFS Certified Fisheries Scientist with an aquaculture specialization. His research and extension efforts target freshwater and marine organisms. From fin-fish to shellfish as well as open, semi-closed and closed systems, Dr. Buttner has delivered in excess of 100 presentations before professional, technical and lay audiences.

Event Details

- Scheduled for **Tuesday, October 19th at 7PM**
- Free and open to the public - no need to RSVP
- Light refreshments will be served, start at 6:30PM
- Lecture will be held at the Marine Science Center located at: 430 Nahant Road, Nahant, MA.

Please feel free to invite anyone that may be interested in attending. We hope to see you there!

New England Aquarium Lecture Series

The Aquarium has been providing free lectures and films by scientists, environmental writers, photographers and others since 1972. The Aquarium Lecture Series is presented free to the public through the generosity of the Lowell Institute which has been providing funding for free public lectures at universities and museums since 1836.

Lectures are free and open to the public. Registration is requested. All programs start at 7 p.m. in the Aquarium's Harborside Learning Lab. Programs last approximately one hour followed by a reception.

October Lectures

Monday, October 4

Medical Management of Sea Turtles Affected by the BP Deepwater Horizon Oil Spill

Speaker - Charles Innis, VMD, Director of Animal Health, New England Aquarium

Senior rescue and veterinary staff from the NE Aquarium were among the first experts

Visit our website at www.northshorefrogmen.com

sent to field stations in the Gulf after the Deep Horizon oil spill. Join Dr. Innis as he recounts his experiences being a part of a large scale sea turtle triage team.

Tuesday, October 19

Horseshoe Crab Behavior

Speaker-Wan-Jean Lee, University of New Hampshire

Horseshoe crabs have been around since the dinosaurs, but much remains to be learned about their behavior and ecological roles. Although many of their behaviors appear simple, they may have

complex ecological consequences. Wan-Jean Lee is focusing her doctoral research on understanding horseshoe crab behavior and how it affects the Great Bay Ecosystem.

Monday, October 25

Running Dry

Speaker-Jonathan Waterman, photographer and author

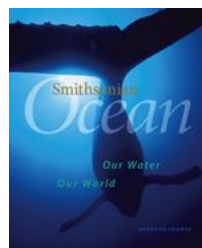

Jonathan Waterman started shooting photographs on his expeditions three decades ago, but also found his calling as a writer and author. He has starred in and written films for television, including *The Logan Challenge* (PBS 1991), *Surviving Denali* (ESPN 1994), and *Odyssey Among the Inuit* (OLN 2000). He has a new book, *Running Dry*, about the Colorado River. The Colorado now reaches the sea only in the wettest of years, and the Delta, once one of the greatest desert estuaries in the world, has been reduced to a veritable wasteland.

Monday, November 1

Smithsonian Ocean: Our Water, Our World

Deborah Cramer, author

Science writer Deborah Cramer will present some of the world's finest marine photography from her book *Smithsonian Ocean: Our Water, Our World*. She will also discuss how all life, including ours, depends on the sea, and how we, a single terrestrial species, are changing the nature of the ocean itself.

Cramer writes about science, nature, and the environment. Currently a visiting scholar at MIT's Earth System Initiative, she is the author of *Great Waters: An Atlantic Passage* and *Smithsonian Ocean*. She lives in Gloucester, Massachusetts.

Eastport Weekend - Dive Number 5

Start time: 8:01AM on 8/30/2010
Max depth: 40 feet
Avg depth: 30 feet
Temp at depth: 54°F
Length of Dive: 55 minutes

In-the-water time was 8AM, later than yesterday morning, but still early. Because of my cold, that meant getting up about 6:30 to take Sudafed in plenty of time before the dive. This would be the last dive of the weekend for us as we had to leave about noon, so there was no way I was going to sleep in and miss this dive.

It was our third beautiful in a row, already warm, clear and calm. We started suiting up in the back yard of “Dawson House” about 7:30, and after donning undergarments, drysuits, boots, weights and tanks we walked across the road and down the path to the beach. The water was flat calm and the sun was bright over Campobello Island (New Brunswick, Canada) across Passamaquoddy Bay. The tide was low, so that meant crossing a lot of seaweed covered cobble before reaching the water’s edge, but it also meant the dive would be 20 feet shallower than the afternoon dive and therefore we could stay in longer and it might not be so dark. Feet in the water just before 8, we put on our masks and fins and headed out.

I descended directly from the beach to make it easy for my ears to clear, headed towards the edge of the wall and slowed down at about 10 feet to poke around and take pictures of some small northern red anemones. Everyone else headed off and down much faster than I wanted to attempt, and I had a peaceful solo start to my dive.

Over the edge of the wall, the bigger hermit crabs challenged my right to invade their domain, and I started picking up whelks to feed to the wolf fish. Along the way I got some pictures of a rock gunnel and a couple of small grubby sculpins as well as some anemones and sun stars. Going slowly, I was not bothered much by my ears and was surprised when I reached the point where the bottom started to level off at about 40 feet, territory that is a little unfamiliar since it’s deeper than we find Gene, the wolf fish we’ve been feeding for the past several summers. After traveling south a short way and realizing I wasn’t going to find the wolf fish at that depth, I turned right, and there were two pairs of fins working the area in front of Pat’s cave. We had named this new, smaller wolf fish Pat as we had no way to identify his/her gender. John was breaking open whelks and Amy was taking pictures of Pat coming out of the cave

to take the treats from John’s hand. They were crowding the space so I moved along.

Shortly after that Ray found me and I showed him where Pat was. Amy and John were gone, so we gave the fish some whelks that we had picked up earlier in our dive. We pattered around for a while and then Ray took off, he was wet enough already, and I took my time going back to the wall.

I stopped to visit briefly with Gene, who, I’m told, has a girlfriend whom I didn’t see, and so is not as outgoing as he has been in the past. It’s hard to get him to come out of his cave for snacks. I saw a big lobster and few redfish

hiding in the crevices near the wolf fish caves, and got some pictures of a winged sea star. Back at the wall, I saw some of the biggest bushy back nudibranchs that I have ever seen. I poked around at the wall for a

while, taking pictures of bushy backs, anemones and sea stars. After a while I headed back up towards the shore. When I got to the chain at the top of the wall at about five feet, I saw a baby lumpfish sitting on a rock, almost like he was posing for me. WOW! I had never seen one of those before and it was just so cool! I had turned off my camera at this point, figuring I was pretty much done with my dive, so I turned it back on and eased up a little closer to the lump fish. He turned towards me a little and improved the pose for me. I was just about to take a picture when he disappeared; just disappeared! I looked around for him for a while, but I couldn’t find that little lump fish anywhere. But at least I *had* seen him!

I came out of the water and walked back up the beach and up the path, and across the road to a warm freshwater outdoor shower. What a great diving day!

Mary Howard

ps- Amy got some shots of that little lump fish by the chain in five feet of water when she came up shortly after I did. He is really cute!

The Bay State Council of Divers

Supporting and promoting the recreational diving community in Massachusetts.

The Bay State Council of Divers (BSC) is a diver's advocacy group. The BSC monitors local, state and federal regulations that may affect the recreational diving community in Massachusetts. When required, the BSC represents the interests of the diving community in these matters.

The BSC serves as a liaison between dive clubs and dive stores to promote recreational diving activity in Massachusetts. All divers are encouraged to support the BSC with an annual contribution of \$5. Your contribution will allow the BSC to continue to be a strong advocate for the recreational diving community in Massachusetts. For more information see the new BSC website at <http://www.baystatecouncil.org>.
