President's Message, March 2004

Greetings NSF Members and Friends,

As we all await the coming of Spring to herald our return to the waters of New England (hard-core drysuit divers excepted--they've been diving all Winter!!), we've entertained ourselves by experiencing the dive trips of others vicariously--either by listening to a few fortunate Froggies' tropical vacation trip reports during Dive Talk, or by imagining ourselves inserted in the various Movie Night videos that we have seen so far. Well, take heart in the fact that in a month or two, you yourself will be under the waves, checking to see how your favorite dive spot has fared over the long winter months.

To those who need to brush the dust off their dive gear in preparation for the season, I strongly suggest that you have your gear checked out by your local dive shop beforehand, so that you do not have to abort your inaugural dive due to equipment failure (I speak from experience on this--so take heed!!). This is also a good time to check out any pre-season equipment sales, if you're not so sure that your well-worn gear is going to stand up to the rigors of another season of diving. Take out your dive gear and check for the little things; I've had to cut a dive short due to a small nick in the O-ring of my regulator's 1st stage, which allowed a steady stream of bubbles to escape. Be sure to change the batteries out of your dive computers, if necessary--many models require a trip to the dive shop to replace the lithium cell. For you U/W photographers and Night Divers out there, make sure that your batteries and O-rings are up-to-snuff as well. As for me, I'll be searching for thicker line for the dive reel that I used last season to tend flag. I got tied up so many times in my own line last year (especially during night dives), I was willing to bribe my dive buddy to tend flag! It's not too early to take the steps necessary to ensure that this year's dive

season will be a safe and happy one; and it is far less stressful to make such preparations now, rather than as you are tossing your gear from the basement into the trunk of your car on your way to the dive site.

Do not forget that preparations are underway for our table at the Boston Sea Rover's Show on March 6th and 7th; any help that you would be willing to give will be greatly appreciated. We are especially in need of warm bodies to help man the table and act as representatives of our club. You do not need to stay there all day; Ray is coordinating a schedule to allow volunteers the flexibility to see the lectures and attend the workshops they want, and still sit in to support our club. Remember, the Aqua-Lung Legend Regulator--which was generously donated to the club by Bobby Boyle of Undersea Divers--is going to be raffled off at the end of the show. Tickets are still being sold at club meetings and will also be sold at our table at Sea Rovers that weekend. Come support your club!!

Michael Donovan
President
NSF '04

P.S.: Don't forget that Mary and Ray will once again be hosting our annual St. Patrick's Day party at their home on March 20th. As Mary puts it, bring photos of your "dead relatives" to toast during the party!!!

19 – February -2004

Meeting called to order: 8:06 PM
Attendance: 4 Officers, 14 Members

Committees:

- **Secretary's Report:** Ray Porter – Meeting Minutes accepted as amended
- **Treasurer's Report:** Rich Kinkade – Account balances accepted as read. Final balances for 2003 pending.
- **Membership:** John Ferrier - Nothing to report.
- **Program:** Daryl Findlay & Dave Smith - Easter egg dive the subject of the next Program Committee Meeting on 3/4 at 7:30.
- **Air Bubbles:** Mary Howard – Submissions for Air Bubbles due tomorrow. Need article from Boston Scuba Show; can be for next issue.

Old Business:

- Sea Rovers Event. Presented the status of the booth planning activities. Attendance at Sea Rovers encouraged. Last year 19 club members were present at the event. Participation lead to meeting potential speakers who then visited our club later that year.
- Rockport Hearing. The meeting was a closed hearing. About 20 dive shop owners were present and given 5 minutes to speak. After 35 minutes, the hearing was postponed to a later date when it can be given more time. Fee for classes were discussed. Initially, a fee of \$75/yr was proposed and the raised to \$75/class.
 - The most used dive sites are designated as parks.

Air Bubbles – March 2004

- A usage fee can be applied if it applies to all users (one group can not be singled out). Such a fee might be applied to “groups of 10 or more”.
- The most used beaches for classes are Back Beach, Old Garden Beach and Pebble Beach.

New Business:

- Froggie Wear. Bill Gannet proposed getting a new line of Froggie wear. Mike Denneler still has some hats. Sweatshirts and T-shirt should be considered. Note made that the Club’s 50th Anniversary is coming up (2007).

Dive Talk:

- Paul Blanchette. Bonaire Dive Trip. 23 people were in the group. 3 took the Trimix rebreather class. One Megladon and 5 Inspiration rebreathers were used. Boat dives

and unlimited shore dives were possible. Paul dove 12 to 13 dives. Some dove as much as 20 times. Because of their late work mixing gases and filling tanks, the group was given open access to the compressor area.

- Wreck Dive: The Windjammer wreck is one of many wrecks in Bonaire. It is at 130 feet.
- Deep Dive: The deepest dive was a reef in which they went to 310 to 315 feet (322 ft max on dive profile). Water temp as surface was 80oF and 75oF below the thermocline. Vis was over 100 feet. First deco stop was at 192 feet. At 20 feet, they used pure O2 for 20 minutes. Total dive time was 75 minutes. Although backup gas was carried incase of rebreather malfunction, Paul

calculated he used on 10 cu. ft of oxygen.

- Sea Life: Lots of small sea life. Fish are not afraid of rebreathers since they make no bubbles. Not as much larger sea life. Good color on reef on night dive.

General Discussion:

- Mike Denneler. Lloyd Scott “ran” 26 miles near Loch Ness in a hard-hat dive outfit in 12 days. He ran the London Marathon in 5 days.
- Mike and Dawn saw Meg Doyan who plans to visit the club in March when Faith comes out for Sea Rovers. Faith to visit club then also.

"Bahama Diving"

I hope this issue gets out in time to advertise Dave Smith's presentation of "Bahama Diving". Dave will be showing us slides and video from his recent dive and family trip, after the meeting on Thursday, February 26. Don't miss it!

Boston Sea Rovers 50th Anniversary Clinic

March 5-7 at the Copley Plaza Hotel in Boston will see the 50th Anniversary of the Boston Sea Rovers Clinics. I am including a schedule of events in this newsletter to let you know what the possibilities are. Friday evening there are various specialized clinics in equipment maintenance and instructor updates. From 9AM-4:45PM both Saturday and Sunday, there are three ballrooms running continuous lectures in subjects ranging from “Adventures in Filming for Television” to “Diving the German Fleet in Scapa Flow”, from “Exotic Atlantic Canada” to “Journey through the Everglades”, and from technical wreck diving to freediving. One of the subjects will be “Artificial Reef Development along the Northeast” by Vincent Malkoski of the Massachusetts Division of Marine Fisheries, which will cover some of the processes required before physical

developments in the artificial reef project can go forward. Another speaker will be Andrew Martinez, talking about “Marine Life of the North Atlantic”. He’ll probably have great photos of wolf fish!

The Saturday evening Film Festival will be MCd by Dr. Robert Ballard, and will include films by Robert Ballard, Emory Kristof (Deep Sea Vents), Brian Skerry (Trial by Ice), Ernest Brooks, Stan Waterman, Smokey Roberts, Bret Gilliam, Nick Caloyianis and Joe MacInnis. This promises to be an exceptionally fascinating event, especially if the past couple of years are any precedent.

ALSO, to quote from the website (check it out at www.bostonsearovers.com): “As a special anniversary feature, we will display a mind-boggling selection of artifacts from famous, and not-so-famous wrecks.” And “Attendees will receive the anniversary program, be eligible for generous door prizes, and raffle tickets will be on sale for a large number of prizes.”

Aside from the lectures, a huge ballroom is devoted to exhibits by equipment manufacturers, dive shops, dive operators and travel agents. This part of the show is free!!

Ticket price for the whole shebang (not including Friday evening) is only \$40. Tickets are also available singly for Saturday, Sunday or Saturday evening (which can sell out).

The Boston Sea Rovers 50th Anniversary Clinic is an event not to be missed!!

Bay State Council Meeting

The most recent Bay State Council of Divers meeting was held at the South Shore Neptunes' club house in Quincy on February 11 at 7:30PM. Angelo made a delicious HUGE meatloaf, herbed roasted potatoes, and corn. And there was a Smores Pie and "Box of Joe" for dessert.

The folks present included Vincent Malkoski of the MA Division of Marine Fisheries, Victor Mastone of the Dept of Underwater Archeological Resources and various members of the Neptunes, MetroWest and Froggies (president Michael Donovan and newsletter editor Mary Howard) dive clubs.

Topics of conversation included, but were not limited to, the Artificial Reef project and possible monies from the pipeline, and continued efforts to retrieve Babe Ruth's piano. Vin Malkoski is to check out the various sites that have had "bottom surveys" done by divers, as well as other sites. This check is to be complete before the next Bay State Council meeting at which this summer's dive dates and locations will be set up.

PLEASE NOTE that one of the lecture topics on Sunday afternoon at Sea Rovers will be *Artificial Reef Development along the Northeast*, by Vincent Malkoski. If anyone is interested in this topic and wants to know why it takes so long to sink a ship, make a point of attending this session.

The Bay State Council Treasure Hunt Dive and Snorkel event is scheduled for May 23 at Stage Fort Park. More information on that will be included in future editions of this newsletter.

The next Bay State Council meeting will be held on Wednesday, May 12, same time, same location. If anyone is interested in attending and needs more information or directions, please contact Mary Howard.

Deadline for submissions
for the April issue of
Air Bubbles
is March 19.
